CONTENTS OF VOLUME XVII

JANUARY, 1916. NUMBER 1

Observations on the Origin and Status of the So-Called "Transitional" White Blood Cell. Frank A. Evans, M.D., Baltimore.............. 1

Adams-Stokes Syndrome — Persistent Bradycardia Involving Both Auricles and Ventricles. Remarkable Prolongation of the As-Vs Interval. W. S. Thayer, M.D., Baltimore......................... 13

The Splenic Pathology of Pernicious Anemia and Allied Conditions. A Duodenal Method of Estimating Hemolysis. J. P. Schneider, M.D., Pittsburgh.............................................. 181

Blood Urea Determinations in 211 Cases. Harold Schwartz, M.D., and Caroline McGill, M.D., Butte, Mont.......................... 42

The Effect of Continuous Electric Light in Experimental Arthritis. Walter E. Simmonds, M.D., and Josiah J. Moore, M.D., Chicago... 78

The Intraspinal Treatment of Syphilis of the Central Nervous System, According to the Method of Swift and Ellis. Richard Dexter, M.D., and Clyde L. Cummer, M.D., Cleveland................................. 101

Prothrombin and Antithrombin Factors in the Coagulation of Blood. George R. Minor, M.D., and George P. Denney, M.D., Boston, and Daniel Davis, M.D., Baltimore................................. 103

Some Clinical, Physiologic and Chemical Observations on Tryptoamine Poisoning from "Creamed" Codfish. M. A. Blankenhorn, M.D., G. E. Harmon, M.D., and Paul J. Hanzlik, M.D., Cleveland........ 140

Observations on Single-Atricular Heart Block. Samuel A. Levine, M.D., Boston........................................................................ 153

Serum Sickness in a Series of Five Hundred Patients Treated with Diphtheria Antitoxin. Mills Sturtevant, M.D., New York..... 176

FEBRUARY, 1916. NUMBER 2

On Nonparasitic Chyluria. K. I. Sanes, M.D., and Max Kahn, M.D., Ph.D., Pittsburgh.................................................. 181

Experimental Alcoholic Cirrhosis of the Liver. Arthur L. Grover, M.D., Iowa City, IA.................................................. 193

The Blood and the Blood Vessels in Hemophilia and Other Hemorrhagic Diseases. Alfred F. Hess, M.D., New York............. 203

A Study of the Lipin Content of a Case of Gaucher's Disease in an Infant. H. R. Wahl, M.D., and M. L. Richardson, M.D., Cleveland.. 238

The Control of Experimental Cretinism. H. Raymond Basinger, Ph.D., Chicago.................................................. 260

Agglutination in Pertussis, Its Characteristics and Its Comparative Value in Clinical Diagnosis, and in Determination of Genus and Species. Olga R. Povitzky, M.D., and Edward Worth, New York... 279

The Permanganate Reduction Index of Cerebrospinal Fluid. W. O. Hoffman, M.D., and A. B. Schwartz, M.D., Chicago........... 293
CONTENTS OF VOLUME XVII

FEBRUARY—Continued

The Interpretation of a Positive Nitrogen Balance in Nephritis. Herman O. Mosenthal, M.D., Baltimore, and Annabella E. Richards, PhD., Philadelphia..............................329

Book Review: Diabetes Mellitus. By Nellis B. Foster...........341

MARCH, 1916. NUMBER 3

Ventricular Hemorrhage: A Symptom-Group. Alfred Gordon, M.D., Philadelphia ..................................................343

The Gastric Mucosa in Delirium Tremens. Edwin F. Hirsch, M.D., Chicago ...............................................................354

The Circulatory Reaction to Graduated Work as a Test of the Heart’s Functional Capacity. Theodore B. Barringer, Jr., M.D., New York..363

Some Attempts to Produce Exophthalmos Experimentally. Abraham Troell, M.D., Stockholm, Sweden..........................382

The Clinical Study of Edema by Means of the Elastometer. A. B. Schwartz, M.D., Chicago........................................396

The Uric Acid Solvent Power of Urine After Administration of Piperazine, Lysidin, Lithium Carbonate and Other Alkalies. Howard D. Haskins, M.D., Portland, Ore..................405

Serologic Examinations in a Case of Polycythemia. Hugo A. Freund, M.D., and Walton K. Rexford, M.D., Detroit........415

Three Cases of Purpura Hemorrhagica in Chronic Tuberculosis. With a Brief Review. S. Bauch, M.D., New York..................444

Remarks on B. Welch in the Stools of Pellegrins. William H. Holmes, M.D., Chicago..................................................453

APRIL, 1916. NUMBER 4

Studies of Edema in Pneumonia. Mary E. Mauer and A. B. Schwartz, Chicago .............................................................459

A Clinical Study of Delayed Gastric Emptying Based on 185 Consecutive Cases Occurring in an Unselected Series of 1,600 Patients with Digestive Symptoms. I. H. Levy, M.D., and J. L. Kantor, M.D., Syracuse .................................................................476

Further Studies of Biological Methods for the Diagnosis of Tuberculosis. J. Bronfenbrenner, Ph.D., Morris H. Kahn, M.D., J. Rockman, M.D., and Max Kahn, M.D., Ph.D., Pittsburgh..........................492

Two Additional Cases of Miliary Tuberculosis of the Placenta with Clinically Latent Tuberculosis of the Mother. Carl Vernon Weller, M.D., Ann Arbor, Mich..................................509

Progressive Lipodystrophy. Charles Herrman, M.D., New York....516
