Mission Statement: JAMA Facial Plastic Surgery is a multispecialty journal whose key mission is to provide facial plastic surgeons the most accurate and innovative information available to enhance their patients’ quality of life.

JAMA Facial Plastic Surgery will strive to:
• Promote the art and science of facial plastic surgery by publishing significant peer-reviewed articles on all aspects of reconstructive and cosmetic surgery of the head and neck.
• Promote the education and contributions of physicians worldwide.
• Provide a forum to present important and relevant issues in ethics and public policy.

JAMA Facial Plastic Surgery

J. Richard Flanagin, MD
Executive Managing Editor

The JAMA Network is a consortium of peer-reviewed print and online medical publications that includes JAMA, JAMA Facial Plastic Surgery and other specialty journals. All articles published, including editorials, letters, and book reviews, represent the opinions of the authors and do not reflect the policy of the American Medical Association, the Editorial Board, or the institution with which the author is affiliated, unless this is clearly specified.
